kWh Usage:.....\$0.0647 per kWh for all kWh

\*Note: Monthly kW is the measured kW shown by or computed from the meter readings of the District's meter, or by appropriate test, for the 30-minute period of customer's greatest takings during the billing month, provided however, that for motors 10 hp or less, the monthly kW may, subject to confirmation by test, be determined from the name plate hp rating and the following table:

<u>If Motor size is:</u>	<u>Monthly kW is:</u>
3 hp or less .....	3 kW
Over 3 through 7 hp .....	7 kW
Over 7 through 10 hp .....	10 kW

## **Emerald People's Utility District Rate Schedules**

---

In no case shall the kW of monthly kW be less than the average kW determined as:

$$\text{Average kW} = \frac{\text{kWh for billing month}}{\text{hours in billing month}}$$

### **SPECIAL CONDITIONS:**

1. For new service, the District may require a written contract.
2. In the absence of a customer or applicant willing to contract for service, the District may remove its facilities.
3. Energy use may be carried forward, and billed in a subsequent billing month. However, energy will not be carried forward and charged for at a higher Price than was applicable for the billing months during which the energy was used.
4. Customers may "self-read" meters during the irrigation season and will be billed monthly for demand and energy charges rather than on a twice-yearly basis. Emerald PUD will furnish meter-reading cards to customers desiring to read their own meters.
5. A delinquency charge of 1.00% per month will be added to all unpaid bills. Unpaid accounts will not be connected at the beginning of the season, and a deposit may be required equal to the prior year's billings.

**SCHEDULE 48T - INDUSTRIAL SERVICE**  
**1,000 kW and Over**

APPLICABLE:

This schedule is applicable to electric service loads, which have registered 1,000 kW or more, more than once in any consecutive 36-month period. Deliveries at more than one point, or more than one voltage and phase classification, will be separately metered and billed. Service for intermittent, partial requirements, or highly fluctuating loads, or where service is seasonally disconnected during any one-year period will be provided only by special contract for such service.

MONTHLY BILLING:

The monthly billing shall be the sum of the Customer, Demand, Energy, and Reactive Power Charges, plus applicable metering and delivery adjustments. Each individual meter has a specific price for the following components:

Customer Charge  
Demand Charge  
Energy Charge  
Reactive Charge  
Distribution Charge  
Primary Meter Discount if applicable

Prices for each meter are listed at the end of this Price schedule.

MINIMUM CHARGE:

The minimum monthly charge shall be the basic charge. A higher minimum may be required by contract.

DEMAND:

The kW shown by or computed from the readings of Emerald's demand meter for the 30-minute period of customer's greatest use during the month, determined to the nearest kW.

POWER FACTOR ADJUSTMENT:

The customer agrees to maintain unity power factor as nearly as practicable. The district reserves the right to measure such power factor at any time. Should such measurement indicate that the average power factor is less than 97%, the demand for billing purposes may be increased by the percent, which the average power factor is less than 97% lagging.

## **Emerald People's Utility District Rate Schedules**

---

### **PRIMARY METERING DISCOUNT:**

Where the customer owns or controls the distribution system, including primaries, secondaries and transformers, a .00150 per kWh primary metering discount will be allowed where such energy is metered at one point of delivery and at primary voltage. The District will determine the point of delivery.

### **SPECIAL CONDITIONS:**

Customer shall not resell electric service received from Emerald under provisions of this schedule, except by written permission of Emerald and where customer meters and bills any tenants at Emerald's regular tariff Price for the type of service which such tenant may actually receive.

### **TERM OF CONTRACT:**

Emerald may require the customer to sign a written contract, which shall have a term of not less than one year.

### **CONTINUING SERVICE:**

This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.

### **RULES AND REGULATIONS:**

Service under this schedule is subject to the General Rules and Regulations contained in the Board Policy of which this schedule is a part.

**SCHEDULE 49X - LARGE INDUSTRIAL SERVICE**  
**Over 9.9 Average Megawatts**

APPLICABLE:

This schedule is applicable to electric service loads, that use 10 average megawatts or more in any consecutive 12-month period served under a separate contract for electric service.

MONTHLY BILLING:

Monthly billings shall be in accordance with the contract provisions

POWER FACTOR ADJUSTMENT:

The customer agrees to maintain unity power factor as nearly as practicable. The district reserves the right to measure such power factor at any time. Should such measurement indicate that the average power factor is less than 97%, the demand for billing purposes may be increased by the percent, which the average power factor is less than 97% lagging.

SPECIAL CONDITIONS:

Customer shall not resell electric service received from Emerald under provisions of this schedule, except by written permission of Emerald.

TERM OF CONTRACT:

Emerald shall require the customer to sign a written contract, which shall have a term of not less than one year.

RULES AND REGULATIONS:

Service under this schedule is subject to the General Rules and Regulations contained in the Board Policy of which this schedule is a part.

**SCHEDULE 51 - HIGH PRESSURE SODIUM STREET LIGHT SERVICE**

APPLICABLE:

To service furnished from dusk to dawn for the lighting of public streets, highways, alleys and parks by means of high-pressure sodium street lights installed on Emerald-owned poles. Streetlights will be served by either series or multiple circuits as Emerald may determine. The type and kind of fixtures and supports will be in accordance with Emerald's specifications. Service includes maintenance, energy, lamp, and glassware renewals.

Service under this schedule is subject to the General Rules and Regulations contained in the Board Policy of which this schedule is a part.

**OPTIONAL SCHEDULE 54 - RECREATIONAL FIELD LIGHTING - RESTRICTED**

APPLICABLE:

To schools, governmental agencies and nonprofit organizations for service supplied through one meter at one point of delivery and used exclusively for annually recurring seasonal lighting of outdoor athletic or recreational fields. This schedule is not applicable to any enterprise, which is operated for profit. Service for purposes other than recreational field lighting may not be combined with such field lighting for billing purposes under this schedule. At customer's option, service for recreational field lighting may be taken under Emerald's applicable General Service Schedule.

ENERGY CHARGE:

Customer Charge: .....\$10.00 per month  
kWh Usage:.....\$0.0746 per kWh for all kWh

MINIMUM CHARGE:

The minimum monthly charge shall be \$10.00

Rates shall be prorated based on effective date in the event of a rate increase.

SPECIAL CONDITIONS:

Customer shall own all poles, wire and other distribution facilities beyond Emerald's point of delivery. Emerald will supply one transformer, or transformer bank, for each athletic recreational field; any additional transformers required shall be supplied and owned by customer. All transformers owned by customer must be properly fused and of such types and characteristics as conform to Emerald's standards. When service is supplied to more than one transformer or transformer bank, Emerald may meter such an installation at primary voltage.

CONTINUING SERVICE:

This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from monthly minimum charges.

RULES AND REGULATIONS:

Service under this schedule is subject to the General Rules and Regulations contained in the Board Policy of which this schedule is a part.

**OPTIONAL SCHEDULE 70 - POWER PURCHASE RATE SCHEDULE  
200 kW and Under**

APPLICABLE:

This schedule applies to any type of electrical generator producing alternating current with an output power rating less than or equal to 200 kW which may be interconnected in parallel with Emerald's electrical distribution system and is owned and operated by an Emerald Customer.

ENERGY CHARGE:

Customer Charge: .....\$30.50      per month  
kWh Generated: .....\$0.05      per kWh for all kWh

MINIMUM CHARGE:

The minimum monthly charge shall be \$30.50

SPECIAL CONDITIONS:

Customer will need to submit an interconnection application that is approved by the District and submit all necessary documentation in accordance with Emerald's Generation Interconnection Policy, as well as Emerald's Customer Service Policies and Procedures.

RULES AND REGULATIONS:

Service under this schedule is subject to the General Rules and Regulations contained in the Board Policy of which this schedule is a part.

**OPTIONAL SCHEDULE G - WIND POWER PARTNER RATE**

APPLICABLE:

For any customer wishing to subscribe to a Green Power Product. Green Power Prices are in addition to the Rate Schedule pricing for which a particular customer qualifies.

ENERGY SURCHARGE - RESIDENTIAL:

100% of all energy used in a billing period .....	\$0.008	per kWh
50% of all energy used in a billing period .....	\$0.008	per kWh

**SCHEDULE 88 M2 - LINE EXTENSION CREDIT**

APPLICABLE:

An existing customer whose demand in the past 12 months has been a minimum of 1,000 kW and had annual energy consumption equal to or greater than 2.4 million kWh qualifies for Rate Schedule 88 M2 if the additional load is at their existing point of delivery. New service or additional load at new points of delivery do not qualify, and are referred to the Line Extension Policy.

RULES AND REGULATIONS:

Customer is required to pay the line extension costs in accordance with the Line Extension Policy in existence at the time the project contract is signed.

FORMULA FOR RATE CREDIT:

The estimated line extension credit will be calculated by dividing the annual estimated kWh sales from the new load divided by the line extension cost and offered as a monthly credit to the distribution charge. The credit will be applied to all kWh usage greater than the average monthly use during the twelve months just prior to the new load coming on line. The credit shall be in effect for no longer than twelve months and will start when the construction has been completed and shall be capped at an amount not to exceed the final line extension cost.

This schedule is subject to the General Rules and Regulations contained in the Board Policy of which this schedule is a part.

Adopted by the Board of Directors with Resolution 2006-13 on December 12, 2006, and amended April 28, 2009.
