Make your home more energy efficient

If you've been thinking about making your home more energy efficient, now is a great time to do it.

The Emerald People's Utility District (EPUD) offers rebates and interest-free loans on some energy-saving and cost-cutting measures that will bring down your utility bill.

Look inside for more information.

What kind of homes are eligible?

If your home is served by EPUD, you're off to a great start. This includes conventional site-built, stick-built, manufactured homes, rental properties and multi-family complexes.

To be eligible for the weatherization subsidy, your home must have permanently installed electric heat.

When you're ready to make it happen, contact EPUD at the number or address below and they'll help you improve your home and fill out the paperwork.

serving all residents of lane county

Weatherization program

Getting the work started

- ▶ Contact Energy & Conservation Services to schedule an audit.
- ▶ EPUD recommends getting three bids from the weatherization installer's list included in your packet. (If you are doing your own work, mail the estimate or proposal to EPUD.)
- ▶ Submit your bid to EPUD Energy Services at 33733 Seavey Loop, Eugene, OR 97405. Let us know at that time if you're applying for a loan.
- ▶ Submit your loan application to First Tech Credit Union.
- ▶ First Tech will notify you if it is approved.
- ▶ EPUD will review your bid and authorize the work.

Funding options

- ▶ Contact EPUD for current rebate information.
- ▶ Application and loan serviced by First Tech.

Recommended weatherization measures

- ▶ Insulation: attic R-38, floors R-19, walls R-11, ducts R-11.
- ▶ Windows: Energy Star qualified product with a 0.30 U-value or lower.

Heat pump program

Getting the work started

- ▶ First, obtain one or more bids from an EPUD-approved contractor. Contact EPUD for a complete list. EPUD does not recommend any specific contractor or product.
- ▶ For the rebate: Complete and sign the rebate election form and return it to EPUD along with a copy of the contractor's bid that you have chosen. Upon approval by EPUD, schedule work with your contractor.
- ▶ For the loan: Complete and sign the Express application and return it to EPUD along with a copy of the contractor's bid that you have chosen. Note: you will be responsible for any binding contracts signed prior to loan approval and authorization.
- ▶ Upon loan approval, you can contact your contractor to schedule work.
- ▶ When the installation of the heat pump system is complete, your contractor will notify EPUD for inspection.
- ▶ After EPUD has inspected the heat pump installation, payment will be issued to the contractor(s), and you will receive your rebate from EPUD or your payment coupon book from the lender.

Funding options

- ▶ Contact EPUD for current rebate information.
- ▶ Application and loan serviced by First Tech.

Heat pumps that qualify

- ▶ Air source heat pumps or gas backup heat pumps: Energy Star labeled or 8.5 HSPF* for split units and 14.0 SEER* ratings for split systems.
- ▶ Ground source heat pumps: 3.0 COP* or higher.

Additional requirements

- ▶ Qualifying systems must have a programmable thermostat. (Note: the auto changeover option is suggested for your convenience.)
- ▶ Duct systems need to be tested for efficiency. If leaks are detected, ducts must be sealed and tested to PTCS specifications.

Term guidelines - Program & Funding levels subject to change without prior notification.

\$0 to \$500 - 12 months.
\$501 to \$1,000 - 24 months.
\$1,001 to \$2,000 - 36 months.
\$2,001 to \$4,000 - 48 months.
\$4,001 to \$7,500 - 60 months.
(heat pump only.)

*HSPF - Heating Seasonal Performance Factor

*COP - Coefficient of Performance

*SEER - Seasonal Energy Efficiency Rating
