PRICE SUMMARIZATION

The following Prices represent the majority of Emerald PUD customers and are a brief summarization of the actual Price Schedules.

-------------------------04 RESIDENTIAL-------------------------
Electric System Charge: ......................................................... $31.00 per month
kWh usage: ........................................................................... $0.0796 per kWh, all kWh

-------------------------25 SINGLE PHASE, UNDER 50 kW-------------------------
Electric System Charge: ......................................................... $31.00 per month
kWh Usage: ........................................................................... $0.0854 per kWh, all kWh

-------------------------25S SINGLE PHASE, OVER 50 kW-------------------------
Electric System Charge: ......................................................... $70.15 per month
Demand Price: .......................................................................... $5.81 per monthly peak kW
kWh Usage: ........................................................................... $0.0725 per kWh, all kWh

-------------------------25U POLY PHASE, UNDER 50 kW-------------------------
Electric System Charge: ......................................................... $31.00 per month
kWh Usage: ........................................................................... $0.0877 per kWh, all kWh

-------------------------25T POLY PHASE, OVER 50 kW-------------------------
Electric System Charge: ......................................................... $70.15 per month
Demand Price: .......................................................................... $5.81 per monthly peak kW
kWh Usage: ........................................................................... $0.0725 per kWh, all kWh
SCHEDULE 4 - RESIDENTIAL SERVICE

AVAILABLE:
In all territory served by Emerald PUD.

APPLICABLE:
Single-family residential customers only for all single-phase electric requirements when all service is supplied at one point of delivery.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

- Electric System Charge: $31.00 per month
- kWh usage: $0.0796 per kWh, all kWh

MINIMUM CHARGE:
The minimum monthly charge shall be $31.00 unless a higher minimum may be required under contract to cover special conditions.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
SCHEDULE 4A - RESIDENTIAL TYPE SERVICE

AVAILABLE:
In all territory served by Emerald PUD.

APPLICABLE:
To single-phase type use metered separately from the residence, but associated with residential use. Examples are: domestic water pumps, hobby shops, garages, barns, swimming pools, etc.; but not specifically limited to the examples.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

Electric System Charge: ................................................................. $31.00 per month
kWh usage: ................................................................................. $0.0796 per kWh, all kWh

MINIMUM CHARGE:
The minimum monthly charge shall be $31.00 unless a higher minimum may be required under contract to cover special conditions.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
AVAILABLE:
In Springfield, Oregon City Limits only for existing SUB customers transferred to Emerald PUD.

APPLICABLE:
Reserved for customers previously served by Springfield Utility Board and transferred to Emerald PUD. If a customer moves from the address, the new customer will be billed on the appropriate Emerald Price schedule.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

Electric System Charge: $14.00 per month

Energy Charge:
October – April
First 1,500 kWh: $0.0575 per kWh
Over 1,500 kWh: $0.0676 per kWh

May - September
First 900 kWh: $0.0575 per kWh
Over 900 kWh: $0.0625 per kWh

Charges shall follow those of SUB in the event of a rate increase.

MINIMUM CHARGE:
The minimum monthly charge shall be $12.90 unless a higher minimum may be required under contract to cover special conditions.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
SCHEDULE 25 – COMMERCIAL TYPE SERVICE
Under 50 kW, Single Phase Service

APPLICABLE:
To customers whose major use of electric service is for single-phase purposes, whose entire electric service requirements are supplied and whose loads have never registered 1,000 kW or more, more than once in any consecutive 36-month period. Deliveries at more than one point, or more than one voltage and phase classification, will be separately metered and billed. Service for intermittent, partial requirements, or highly fluctuating loads, or where service is seasonally disconnected during any one-year period will be provided only by special contract for such service.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

Electric System Charge: ................................................................. $31.00 per month
kWh Usage: .................................................................................. $0.0854 per kWh for all kWh

*Note: Under 50 kW accounts are those that have not registered 50 kW or more as computed from the readings of Emerald’s demand meter at least once during the prior 12-month period.

MINIMUM CHARGE:
The minimum monthly charge shall be $31.00 unless a higher minimum may be required under contract to cover special conditions.

SPECIAL CONDITIONS:
Customer shall not resell electric service received from Emerald under provisions of this schedule to any person, except by written permission of Emerald and where customer meters and bills any tenants at Emerald’s regular tariff Price for the type of service which such tenant may actually receive.

GENERAL SERVICE:
All service not qualifying for other specific Price schedules.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from monthly minimum charges.
RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.

TERM OF CONTRACT:
Emerald may require the customer to sign a written contract that shall have a term of not less than one year.
SCHEDULE 25E - SCHOOL SERVICE

AVAILABLE:
In all territory served by Emerald PUD.

APPLICABLE:
All Public and Private schools at any educational level. Not applicable to day care facilities.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

Electric System Charge: $31.00 per month
kWh Usage: $0.0813 per kWh for all kWh

MINIMUM CHARGE:
The minimum monthly charge shall be $31.00 unless a higher minimum may be required under contract to cover special conditions.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
SCHEDULE 25S – COMMERCIAL TYPE SERVICE
Over 50 kW, Single Phase Service

APPLICABLE:
To non-residential customers whose entire electric service requirements are supplied and whose loads have never registered 1,000 kW or more, more than once in any consecutive 36-month period. Deliveries at more than one point, or more than one voltage and phase classification will be separately metered and billed. Service for intermittent, partial requirements, or highly fluctuating loads, or where service is seasonally disconnected during any one-year period, will be provided only by special contract for such service.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

Electric System Charge: ................................................................. $70.15 per month
Demand Charge: ........................................................................... $5.81 per kW for all kW
kWh Usage: .................................................................................. $0.0725 per kWh for all kWh

*Note: Over 50 kW accounts are those that have registered 50 kW or more as computed from the readings of Emerald's demand meter at least once during the prior 12-month period.

MINIMUM CHARGE:
The minimum monthly charge shall be $70.15 for over 50 kW customers.

POWER FACTOR ADJUSTMENT:
The customer agrees to maintain unity power factor as nearly as practicable. The District reserves the right to measure such power factor at any time. Should such measurement indicate that the average power factor is less than 97%, the demand for billing purposes may be increased by the percent, which the average power factor is less than 97% lagging.

DEMAND:
The kW shown by or computed from the readings of Emerald's demand meter for the 30-minute period of customer's greatest use during the month, determined to the nearest kW.

SPECIAL CONDITIONS:
Customer shall not resell electric service received from Emerald under provisions of this schedule to any person, except by written permission of Emerald and where customer meters and bills any tenants at Emerald's regular tariff Price for the type of service which such tenant may actually receive.
CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from monthly minimum charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.

TERM OF CONTRACT:
Emerald may require the customer to sign a written contract, which shall have a term of not less than one year.
SCHEDULE 25T – COMMERCIAL TYPE SERVICE
Over 50 kW, Poly Phase Service

APPLICABLE:
To non-residential customers whose entire electric service requirements are supplied and whose loads have never registered 1,000 kW or more, more than once in any consecutive 36-month period. Deliveries at more than one point, or more than one voltage and phase classification, will be separately metered and billed. Service for intermittent, partial requirements, or highly fluctuating loads, or where service is seasonally disconnected during any one-year period, will be provided only by special contract for such service.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

- Electric System Charge: ................................................................ $70.15 per month
- Demand Charge: ............................................................................ $5.81 per kW for all kW
- kWh Usage: .................................................................................... $0.0725 per kWh for all kWh

*Note: Over 50 kW accounts are those that have registered 50 kW or more as computed from the readings of Emerald's demand meter at least once during the prior 12-month period.

MINIMUM CHARGE:
The minimum monthly charge shall be $70.15 for over 50 kW customers.

POWER FACTOR ADJUSTMENT:
The customer agrees to maintain unity power factor as nearly as practicable. The District reserves the right to measure such power factor at any time. Should such measurement indicate that the average power factor is less than 97%; the demand for billing purposes may be increased by the percent, which the average power factor is less than 97% lagging.
DEMAND:
The kW shown by or computed from the readings of Emerald's demand meter for the 30-minute period of customer's greatest use during the month, determined to the nearest kW.

SPECIAL CONDITIONS:
Customer shall not resell electric service received from Emerald under provisions of this schedule to any person, except by written permission of Emerald and where customer meters and bills any tenants at Emerald's regular tariff Price for the type of service which such tenant may actually receive.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from monthly minimum charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.

TERM OF CONTRACT:
Emerald may require the customer to sign a written contract that shall have a term of not less than one year.
SCHEDULE 25U – COMMERCIAL TYPE SERVICE
Under 50 kW, Poly Phase Service

APPLICABLE:
To non-residential customers whose entire electric service requirements are supplied and whose loads have never registered 1,000 kW or more, more than once in any consecutive 36-month period. Deliveries at more than one point, or more than one voltage and phase classification, will be separately metered and billed. Service for intermittent, partial requirements, or highly fluctuating loads, or where service is seasonally disconnected during any one-year period, will be provided only by special contract for such service.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

Electric System Charge: .................................................................$31.00 per month
kWh Usage: ....................................................................................$0.0877 per kWh for all kWh

*Note: Under 50 kW accounts are those that have not registered 50 kW or more as computed from the readings of Emerald's demand meter at least once during the prior 12-month period.

MINIMUM CHARGE:
The minimum monthly charge shall be $31.00 for under 50 kW poly phase customers.

DEMAND:
The kW shown by or computed from the readings of Emerald's demand meter for the 30-minute period of customer's greatest use during the month, determined to the nearest kW.

SPECIAL CONDITIONS:
Customer shall not resell electric service received from Emerald under provisions of this schedule to any person, except by written permission of Emerald and where customer meters and bills any tenants at Emerald's regular tariff Price for the type of service which such tenant may actually receive.
CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from monthly minimum charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.

TERM OF CONTRACT:
Emerald may require the customer to sign a written contract that shall have a term of not less than one year.
SCHEDULE 41 - AGRICULTURAL PUMPING SERVICE
Single Phase Service

APPLICABLE:
To customers desiring service for irrigation and soil drainage pumping installations only. Service furnished under this schedule will be metered and billed separately at each point of delivery.

ANNUAL MINIMUM:
An annual minimum of the monthly Electric System Charge times 12 months, less amounts previously billed in the calendar year, will be assessed to all accounts. See the Operations & Engineering Policy, Section 5 for details regarding Removal of Idle Facilities.

MONTHLY BILLING:
The monthly billing shall be the sum of the following charges:

Electric System Charge: .............................................. $31.00 per month, 12 months per year
kWh Usage: ................................................................ $0.0892 per kWh for all kWh

*Note: Monthly kW is the measured kW shown by or computed from the meter readings of the District's meter, or by appropriate test, for the 30-minute period of customer's greatest takings during the billing month, provided however, that for motors 10 hp or less, the monthly kW may, subject to confirmation by test, be determined from the name plate hp rating and the following table:

<table>
<thead>
<tr>
<th>Motor size is:</th>
<th>Monthly kW is:</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 hp or less</td>
<td>3 kW</td>
</tr>
<tr>
<td>Over 3 through 7 hp</td>
<td>7 kW</td>
</tr>
<tr>
<td>Over 7 through 10 hp</td>
<td>10 kW</td>
</tr>
</tbody>
</table>

In no case shall the kW of monthly kW be less than the average kW determined as:

Average kW = kWh for billing month

hours in billing month
SPECIAL CONDITIONS:
1. For new service, the District may require a written contract.
2. In the absence of a customer or applicant willing to contract for service, the District may remove its facilities.
3. Energy use may be carried forward, and billed in a subsequent billing month. However, energy will not be carried forward and charged for at a higher Price than was applicable for the billing months during which the energy was used.
SCHEDULE 41T - AGRICULTURAL PUMPING SERVICE
30 hp or less Poly Phase Service

APPLICABLE:
To customers desiring service for irrigation and soil drainage pumping installations only. Service furnished under this schedule will be metered and billed separately at each point of delivery.

ANNUAL MINIMUM:
An annual minimum of the monthly Electric System Charge times 12 months, less amounts previously billed in the calendar year, will be assessed to all accounts. See the Operations & Engineering Policy, Section 5 for details regarding Removal of Idle Facilities.

MONTHLY BILLING:
The monthly billing shall be the sum of the Electric System Charge and applicable Energy Charges.

\[
\text{Average kW} = \frac{\text{kWh for billing month}}{\text{hours in billing month}}
\]

SPECIAL CONDITIONS:

1. For new service, the District may require a written contract.
2. In the absence of a customer or applicant willing to contract for service, the District may remove its facilities.
3. Energy use may be carried forward, and billed in a subsequent billing month. However, energy will not be carried forward and charged for at a higher Price than was applicable for the billing months during which the energy was used.
SCHEDULE 41U - AGRICULTURAL PUMPING SERVICE
30.1 hp to 60 hp Poly Phase Service

APPLICABLE:
To customers desiring service for irrigation and soil drainage pumping installations only. Service furnished under this schedule will be metered and billed separately at each point of delivery.

ANNUAL MINIMUM:
An annual minimum of the monthly Electric System Charge times 12 months, less amounts previously billed in the calendar year, will be assessed to all accounts. See the Operations & Engineering Policy, Section 5 for details regarding Removal of Idle Facilities.

MONTHLY BILLING:

Over 3 through 7 hp ........................................ 7 kW
Over 7 through 10 hp ..................................... 10 kWh

In no case shall the kW of monthly kW be less than the average kW determined as:

Average kW = kWh for billing month
             hours in billing month

SPECIAL CONDITIONS:
1. For new service, the District may require a written contract.
2. In the absence of a customer or applicant willing to contract for service, the District may remove its facilities.
3. Energy use may be carried forward, and billed in a subsequent billing month. However, energy will not be carried forward and charged for at a higher Price than was applicable for the billing months during which the energy was used.
4. A delinquency charge of 1.00% per month will be added to all unpaid bills. Unpaid accounts will not be connected at the beginning of the season, and a deposit may be required equal to the prior year's billings
SCHEDULE 48 - INDUSTRIAL SERVICE
1,000 kW and Over

APPLICABLE:
This schedule is applicable to electric service loads, which have registered 1,000 kW or more, more than once in any consecutive 36-month period. Deliveries at more than one point, or more than one voltage and phase classification, will be separately metered and billed. Service for intermittent, partial requirements, or highly fluctuating loads, or where service is seasonally disconnected during any one-year period will be provided only by special contract for such service.

MONTHLY BILLING:
The monthly billing shall be the sum of the Electric System, Demand, Energy, and Power Factor Charges, plus applicable metering and delivery adjustments. Each individual meter has a specific price for the following components:

Electric System Charge
Demand Charge
Energy Charge
Power Factor Charge
Distribution Charge
Primary Meter Discount if applicable

Prices for each meter are listed at the end of this Price schedule.

MINIMUM CHARGE:
The minimum monthly charge shall be the Electric System Charge. A higher minimum may be required by contract.

ENERGY CHARGE:
The energy charge assigned to customers classified as a New Large Load under Emerald’s New Large Load Policy will be calculated as a melded rate based on:
- The cost of EPUD’s existing Tier 1 power (only if made available)
- The cost of any required non-federal resources or BPA “Tier 2” power

The energy charge for New Large Load customers will be updated at least once per year to reflect current costs of power as well as any share of Tier 1 BPA power made available to NLL customers. New Large Load customers will be assigned a rate schedule with the prefix “48N”.

Approved: 11/13/18  Revision Date Effective: 04/01/19
Adopted: 10/07/83  Revision: 21
DEMAND:
The kW shown by or computed from the readings of Emerald's demand meter for the 30-minute period of customer's greatest use during the month, determined to the nearest kW.

POWER FACTOR ADJUSTMENT:
The customer agrees to maintain unity power factor as nearly as practicable. The district reserves the right to measure such power factor at any time. Should such measurement indicate that the average power factor is less than 97%, the demand for billing purposes may be increased by the percent, which the average power factor is less than 97% lagging.

PRIMARY METERING DISCOUNT:
Where the customer owns or controls the distribution system, including primaries, secondaries and transformers, a .00150 per kWh primary metering discount will be allowed where such energy is metered at one point of delivery and at primary voltage. The District will determine the point of delivery.

SPECIAL CONDITIONS:
Customer shall not resell electric service received from Emerald under provisions of this schedule, except by written permission of Emerald and where customer meters and bills any tenants at Emerald's regular tariff Price for the type of service which such tenant may actually receive.

TERM OF CONTRACT:
Emerald may require the customer to sign a written contract, which shall have a term of not less than one year.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
SCHEDULE 52 -
EMERALD OWNED AND MAINTAINED OUTDOOR AREA AND STREET LIGHTING

APPLICABLE:
Outdoor lighting furnished by means of Emerald-owned luminaires mounted on Emerald-owned poles or facilities. Luminaires shall be mounted and serviced in accordance with Emerald’s equipment and installation specifications. Lighting services include, but are not limited to, street lighting and general area lights.

Customers who receive energy-only service including decorative or non-standard lighting or miscellaneous devices will be classified in rate schedule 53.

MONTHLY BILLING:
A fixed monthly charge per luminaire based on wattage as outlined below.

<table>
<thead>
<tr>
<th>Fixture Wattage Range</th>
<th>Price per Luminaire</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-70 Watts</td>
<td>$11.12</td>

<tr>
<td>151-200 Watts</td>
<td>$19.74</td>
</tr>
<tr>
<td>201+ Watts</td>
<td>$32.00</td>
</tr>
</tbody>
</table>

SPECIAL PROVISIONS:
1. Emerald will perform necessary maintenance and repairs as soon as practicable after notification by the customers.
2. Customers may be assessed a non-compliant charge equal to four times the highest monthly bill in the last 12 months when any lights or devices are found operating outside normal operating hours.
3. Customers with devices found operating outside normal operating hours will be notified and provided 60 days to remedy the situation before a non-compliant charge is assessed.
4. Any changes to or from service under this rate schedule to energy-only service shall be conducted at the customer’s expense and will be placed in the appropriate rate schedule.

TERM OF CONTRACT: Not less than one year.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
OPTIONAL SCHEDULE 53 - CUSTOMER-OWNED AND MAINTAINED OUTDOOR LIGHTING AND FIXED DEVICE SERVICE

APPLICABLE:
Customer-owned and maintained facilities, including the following:
- Outdoor lighting of public streets, highways, alleys, and parks
- Other property and fixed devices including, but not limited to, railroad crossings, communication equipment and radio towers

Customers who receive service under this rate schedule are responsible for all time and materials associated with maintaining or repairing facilities. Customers may request Emerald perform maintenance or repair. If Emerald elects to perform any maintenance or repair, billing will be on a time and materials basis.

MONTHLY BILLING:
Each facility or set of facilities may be subject to an Electric System Charge. Emerald will determine the total Electric System Charge for a given customer account based on criteria including, but not limited to, number of facilities, density of facilities, additional requirements and cost of service. The current baseline charge per facility is:

Electric System Charge: ........................................................................................................ $31.00 per month

A fixed energy charge per facility or set of facilities based on annual estimated energy consumption divided by bill cycles in a calendar year. The current energy rate is:

Energy Rate:........................................................................................................ $0.0789 per kWh for all kWh

SPECIAL PROVISIONS:
1. Customers may be assessed a non-compliant charge equal to four times the highest monthly bill in the last 12 months when any lights or devices are found operating outside normal operating hours.
2. Customers with devices found operating outside normal operating hours will be notified and provided 60 days to remedy the situation before a non-compliant charge is assessed.
3. Requests for maintenance or repair of facilities will be considered by Emerald, based on availability, on a time and materials basis.

TERM OF CONTRACT: Not less than one year.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
APPLICABLE:
To schools, governmental agencies, and nonprofit organizations for service supplied through one meter at one point of delivery and used exclusively for annually recurring seasonal lighting of outdoor athletic or recreational fields. This schedule is not applicable to any enterprise which is operated for profit. Service for purposes other than recreational field lighting may not be combined with such field lighting for billing purposes under this schedule. At customer's option, service for recreational field lighting may be taken under Emerald's applicable General Service Schedule.

ENERGY CHARGE:
Electric System Charge: ................................................................. $31.00 per month
kWh Usage: .................................................................................... $0.0876 per kWh for all kWh

MINIMUM CHARGE:
The minimum monthly charge shall be $31.00.

SPECIAL CONDITIONS:
Customer shall own all poles, wire, and other distribution facilities beyond Emerald's point of delivery. Emerald will supply one transformer, or transformer bank, for each athletic recreational field; any additional transformers required shall be supplied and owned by customer. All transformers owned by customer must be properly fused and of such types and characteristics as conform to Emerald's standards. When service is supplied to more than one transformer or transformer bank, Emerald may meter such an installation at primary voltage.

CONTINUING SERVICE:
This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from monthly minimum charges.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
OPTIONAL SCHEDULE 70 -
POWER PURCHASE RATE SCHEDULE
200 kW and Under

APPLICABLE:
This schedule applies to any type of electrical generator producing alternating current with an
output power rating less than or equal to 200 kW which may be interconnected in parallel with
Emerald’s electrical distribution system and is owned and operated by an Emerald Customer.

ENERGY CHARGE:
Electric System Charge: ...............................................................$31.00 per month
kWh Generated: .............................................................................$0.05 per kWh for all kWh

MINIMUM CHARGE:
The minimum monthly charge shall be $31.00.

SPECIAL CONDITIONS:
Customer will need to submit an interconnection application that is approved by the District and
submit all necessary documentation in accordance with Emerald’s Generation Interconnection
Policy, as well as Emerald’s Customer Service Policies and Procedures.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald
People’s Utility District’s policies and procedures.
OPTIONAL SCHEDULE G – GREEN POWER

APPLICABLE:
For any customer wishing to subscribe to the GREEN Program. GREEN prices are in addition to the Rate Schedule pricing for which a particular customer qualifies.

ENERGY SURCHARGE - RESIDENTIAL:
100% of all energy used in a billing period.........................................$0.008 per kWh
50% of all energy used in a billing period..............................................$0.008 per kWh

ENERGY SURCHARGE - NON-RESIDENTIAL:
Each non-residential agreement will have an $8.00 per month minimum for metered service.

100% of all energy used in a billing period.........................................$0.008 per kWh
50% of all energy used in a billing period..............................................$0.008 per kWh
25% of all energy used in a billing period..............................................$0.008 per kWh
10% of all energy used in a billing period..............................................$0.008 per kWh

ENERGY SURCHARGE – INDUSTRIAL, RATE SCHEDULE 48:
A purchase of either 3% or 6% of monthly energy use (depending on annual energy use) will be required to receive recognition as an Emerald GREEN Partner. Other levels may be available for purchase on a case-by-case basis. ..................................................$0.008 per kWh

SPECIAL EVENTS:
Special events, concerts or other special programs may choose to purchase GREEN power in 1,000 kWh blocks at $8.00 per block.

CONTINUING SERVICE:
The GREEN program is available on a monthly basis until the customer chooses to cancel the agreement.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
SCHEDULE D1- DISTRIBUTION SERVICE RATE SCHEDULE

APPLICABLE:
This schedule applies to electrical generators that may be interconnected in parallel with Emerald’s electrical distribution system and meet the definition of a “Qualifying facility” per ORS 758.505(8). This schedule applies only in cases where the energy output from such a facility will be transmitted to an electrical utility other than Emerald.

DISTRIBUTION CHARGES:
Electric System Charge...........................................$72.25 per month
Demand Charge......................................................$5.69 per kW-month

MINIMUM CHARGE:
The minimum monthly charge shall be $72.25 unless a higher minimum is required under contract to cover special conditions.

SPECIAL CONDITIONS:
Customer will need to submit an interconnection application that is approved by the District and meet all the requirements outlined in Emerald’s Generation Interconnection Policy, Qualifying Facility Policy, Customer Service Policy, and Line Extension Policy.

TERM OF CONTRACT:
Emerald shall require the customer to sign a written contract, which shall have a term of not less than one year.

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
SCHEDULE 88 M - MISCELLANEOUS SERVICE CHARGES

APPLICABLE:
All Customers.

Miscellaneous Service Charges are for special costs, such as Collection Charges, Unhonored Check Charges, Connect Fees, Temporary Service Charges and Opt Out Charges.

Field Collection Charge ........................................................................................................ $15.00
Meter Tampering Charge (Minimum or actual, whichever is higher) .................................. $125.00
Resumption of Service Charge (during regular hours) ......................................................... $25.00
Resumption of Service Charge (after regular hours) ........... Actual cost, but not to exceed $200.00
Unhonored Check Charge ....................................................................................................... $20.00
Opt Out Monthly Meter Reading Charge ........................................................................ $12.50
Opt Out Meter Replacement Charge.................................................................................... $95.00
Installation of Temporary Service Charge (150 feet or less) Actual cost
Installation of Temporary Service Conductor (over 150 feet):
  No transformer required ............................................................................................ Actual cost
  Transformer required
    Three-phase services ................................................................................. Actual cost
Late Charges for past due amounts:
  Amount of past due $00.00–$24.99 ........................................................................... No Charge
  Amount of past due $25.00–$500.00 ........................................................................... $5.00
  Amount of past due over $500.00 is assessed a monthly percentage ................................. 1.0%
    Late fee is assessed beginning with the 1st delinquent month
New Connect Fee .............................................................................................................. Actual cost
Application for Generation Interconnection Deposits:
  Small Power Production (250 kW or less) ....................................................................... $500.00
  Large Power Production (over 250 kW)
    $1,000 plus $1,000 per MW or portion thereof over 250 kW

RULES AND REGULATIONS:
Service under this schedule is also subject to all rules and regulations contained in Emerald People’s Utility District’s policies and procedures.
SCHEDULE 88 M2 - LINE EXTENSION CREDIT

APPLICABLE:
An existing customer whose demand in the past 12 months has been a minimum of 1,000 kW and had annual energy consumption equal to or greater than 2.4 million kWh qualifies for Rate Schedule 88 M2 if the additional load is at their existing point of delivery. New service or additional load at new points of delivery do not qualify, and are referred to the Line Extension Policy.

RULES AND REGULATIONS:
Customer is required to pay the line extension costs in accordance with the Line Extension Policy in existence at the time the project contract is signed.

FORMULA FOR RATE CREDIT:
The estimated line extension credit will be calculated by dividing the annual estimated kWh sales from the new load divided by the line extension cost and offered as a monthly credit to the distribution charge. The credit will be applied to all kWh usage greater than the average monthly use during the twelve months just prior to the new load coming on line. The credit shall be in effect for no longer than twelve months and will start when the construction has been completed and shall be capped at an amount not to exceed the final line extension cost.

This schedule is subject to the General Rules and Regulations contained in the Board Policy of which this schedule is a part.

Adopted by the Board of Directors with Resolution 2006-13 on December 12, 2006, and amended April 28, 2009.
